

## HYDROJET HJ100

Domestic water pump

### APPLICATION

Budget model suitable for Medium size two level homes and home rainwater irrigation systems

### DESIGN FEATURES

- Fully automatic
- In-built run dry protection
- Suitable for mains and low pressure systems
- Two year parts and labour warranty
- Very low maintenance
- Suitable for use with above or below ground water tanks, wells bores and spear points
- Provides constant pressure at constant flow

### TECHNICAL DATA

Construction Casing/impeller	S/Steel / S/Steel	Inlet (mm)	25
Operation	Presscontrol	Outlet (mm)	25
Pump Type	Jet	Maximum Head (m)	40
Pressure Tank Options	8 L optional	Maximum Flow (Ltr/min)	70
Motor (kW)	0.75	Shut off Pressure (kPa)	440
Full Load Current (amps)	4.5	Weight (Kg)	10
Dimensions (mm)	Height 350	Width 210	Length 380
