

MULTISAN-PRO

Fully automatic sewage and waste water pump

APPLICATION

Multisan-Pro is suitable for pumping waste water from toilets, bidets, showers and basins from rooms which are below the sewer level, or conditions where small dimensioned discharge pipes are required.

DESIGN FEATURES

- Completely self contained
- Quiet, powerful and fully automatic
- Dry mounted motor and pump
- Easily installed and serviced
- Designed and built in Germany for New Zealand conditions
- 2 year warranty
- High head and flow
- Can be remotely installed (max 900mm from appliance)
- Audible alarm and signalling in-case of fault
- Solenoid valve to isolate water supply to plumbing fixtures draining to the pump (**optional**)
- Carbon filter for internal venting (**Check with your local Authority for compliance**)

TECHNICAL DATA

Motor Power (kW) (P1)	0.6	Total Tank Volume	11 litres
Temp Continuous / Max	40 °C	Delivery connection	32mm BSPf
Voltage 50Hz (V)	230	IP Rating	IP54
Cable (m)	1.5	32mm swing check	Supplied
Nominal Current (A)	2.5	32mm Isolating valve	Supplied
Weight (kg)	11	Overall dimensions	448(L) x 292(H) x 257(W)
