

HYDROJET HJ140

Domestic water pump

APPLICATION

The Hydrojet 140 is a powerful stainless steel jet pump suitable for small to large houses where tough suction conditions exist.

DESIGN FEATURES

- Fully automatic
- In-built run dry protection
- Suitable for mains and low pressure systems
- Two year parts and labour warranty
- Very low maintenance
- Suitable for use with above or below ground water tanks, wells bores and spear points
- Provides constant pressure at constant flow

TECHNICAL DATA

Construction Casing/impeller	S/Steel / Brass	Inlet (mm)	25
Operation	Presscontrol	Outlet (mm)	25
Pump Type	Jet	Maximum Head(m)	40
Pressure Tank Options	8-24 L optional	Maximum Flow (Ltr/min)	75
Motor (kW)	0.9	Shut off Pressure (kPa)	450
Full Load Current (amps)	6.6	Weight (Kg)	12
Dimensions (mm)	(Height) 470	(Width) 200	(Length) 380

Pump Performance
