

HYDROJET HJ400

Domestic water pump

APPLICATION

For supply of water in medium size double level homes in difficult suction lift applications.

DESIGN FEATURES

- Fully automatic
- In-built run dry protection
- Suitable for mains and low pressure systems
- Two year parts and labour warranty
- Very low maintenance
- Suitable for use with above or below ground water tanks, wells bores and spear points
- Provides constant pressure at constant flow

TECHNICAL DATA

Construction Casing/impeller	Cast Iron / Brass	Inlet (mm)	25
Operation	Presscontrol	Outlet (mm)	25
Pump Type	Jet	Maximum Head (m)	40
Pressure Tank Options	8-24 L optional	Maximum Flow (Ltr/min)	75
Motor (kW)	1.1	Shut off Pressure (kPa)	450
Full Load Current (amps)	7.0	Weight (Kg)	18.5
Dimensions (mm)	(Height) 450	(Width) 230	(Length) 475

Pump Performance
