

HYDROJET HJ140

Domestic water pump

APPLICATION

The Hydrojet 140 is a powerful stainless steel jet pump suitable for small to large houses where tough suction conditions exist.

DESIGN FEATURES

- Fully automatic
- In-built run dry protection
- Suitable for mains and low pressure systems
- Two year parts and labour warranty
- Very low maintenance
- Suitable for use with above or below ground water tanks, wells bores and spear points
- Provides constant pressure at constant flow

TECHNICAL DATA

Construction Casing/impeller	S/Steel / S/Steel	Inlet (mm)	25
Operation	Presscontrol	Outlet (mm)	25
Pump Type	Jet	Maximum Head(m)	50
Pressure Tank Options	8-24 L optional	Max Flow (Ltr/min)	80
Motor (kW)	1.0	Shut off Pressure (kPa)	500
Full Load Current (amps)	6.0	Weight (Kg)	15
Dimensions (mm)	(Height) 500	(Width) 200	(Length) 420
